..there is an irregular trend in the delay experienced by flights from **Sunday** To **Saturday** with **Tuesday** recording the highest number of delays across all airports

The airline 'WN' has the highest record of airline delay so far with over **65.5K** delays recorded from a total of **240k** delayed flights

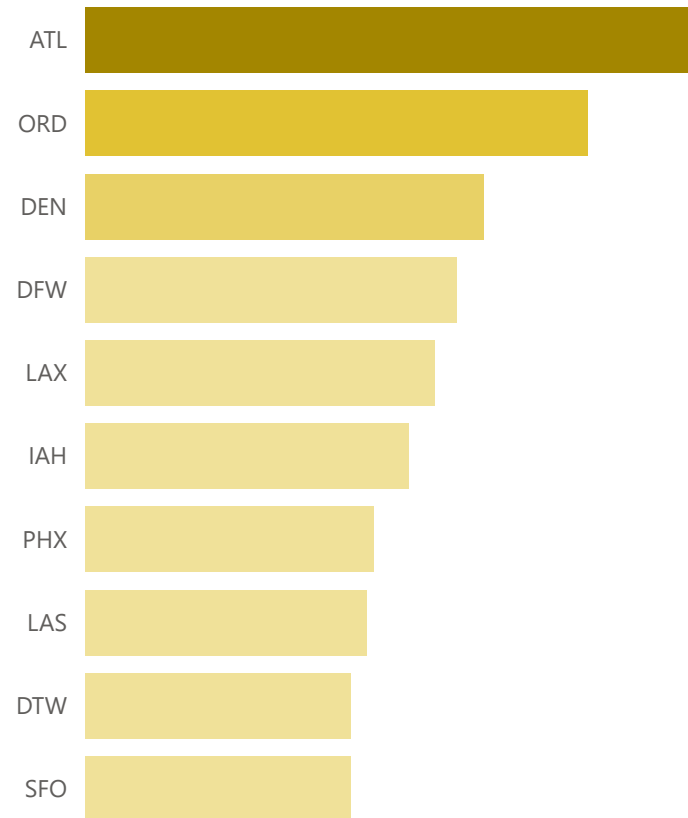

Airlines

18

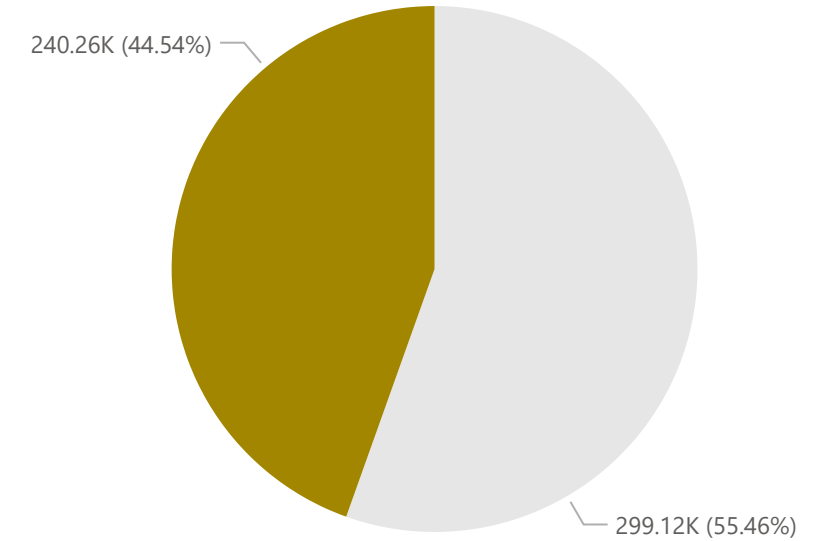

Airlines

293

**ATL** airport has experienced more delay in their airline operations compared to the rest 292 airports with **14.6k** delays recorded

**44.54%** of the entire 539,383 flights were delayed indicating a high possibility in delay of flights in the future

### Recommendations

The airport authorities and officials should be dedicated towards putting the needs of the passengers first by avoiding unnecessary flight delays

Factors leading to the delay of flights should be properly checkmated

All hands should be on deck to reduce the percentage of delay to the barest minimum in a short time, this will help to improve passenger's satisfaction
